Fresh new looks, landscaping ideas, building, maintenance, and repair.

In Low Carb, Healthy Fat, Pete Evans covers the why and how of adopting low carb lifestyle, which has been scientifically proven to be the simplest and most effective means to achieve and maintain a healthy weight. By reducing sugar- and starch-based carbohydrates in our meals and instead combining in-season vegetables with a moderate amount of high-quality protein, enough healthy fat to satiate and some fermented foods, we can quickly and easily unlock our body's natural potential for fast, healthy weight loss, improve our mood and energy levels and support better brain function. The science behind the low carb lifestyle is clearly explained, with nutritional and lifestyle advice on which foods to embrace and avoid, simple meal plans to get you going and, of course, more than 100 delicious, nutrient-dense recipes to make eating well that much easier and more enjoyable. Everything from the ingredients in these dishes, to the way they are cooked and served, is about creating better health and wellbeing for you and your family for the rest of your lives. Now it's time to get into the kitchen and start cooking! This is a specially formatted fixed-layout ebook that retains the look and feel of the print book.

Library has Vol. 1-5.

'A Fantastic Book. Every Nurse should own one.' 'Amazing must have BIBLE for every student nurse and nurse :).'
'The best investment I've ever made and will be useful for many, many years.'
'This book is perfect to learn about a variety of clinical procedures to help you improve your practice, making it safe and ensuring it is evidence based.'
Amazon readers The Royal Marsden Manual of Clinical Nursing Procedures has been the number one choice for nurses since it first published, over 30 years ago. One of the world's most popular books on clinical skills and procedures, it provides detailed procedure guidelines based on the latest research findings and expert clinical advice, enabling nurses and students to deliver clinically effective patient-focused care. The ninth edition of this essential, definitive guide, written especially for pre-registration nursing students, now includes a range of new learning features throughout each chapter that have been designed to support student nurses to support learning in clinical practice. Providing essential information on over 200 procedures, this manual contains all the skills and changes in practice that reflect modern acute nursing care. Learning features in the book include: 'Learning outcomes'- a summary of the topics covered in a chapter. 'Check your knowledge'- lets you check how much you know about the topic already. 'Learning in practice'- asks you to consider issues within your practice environment. 'Case studies'- provide learning around a particular patient case. 'Scenarios'- challenge you to think how you would act in a given situation. 'Key point boxes' - highlight the essential points to remember. 'Learning exercises'- test yourself after each chapter.

This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work was reproduced from the original artifact, and remains as true to the original work as possible. Therefore, you will see the original copyright references, library stamps (as most of these works have been housed in our most important libraries around the world), and other notations in the work. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. As a reproduction of a historical artifact, this work may contain missing or blurred pages, poor pictures, errant marks, etc. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. REPLACEMENT CELL The oil companies ruled the world. Clar Dalen intended to change that. As a brilliant researcher and professor at UCLA, with a unique perspective on problem solving, he was working on discovering an alternative, renewable energy source. He was so close to an answer, when fate intervened. Clar, still drawn to his roots as an activist in the 60s, participates in a sit-in rally at a local Bertrand Oil drilling rig. The protest rally goes horribly wrong, resulting in the death of a Bertrand Senior Executive at Clar's hands. It is an act of self-defense after the oil executive, the son of a former U.S. President, opened fire on the protestors and kills two of Clar's friends and then comes after Clar. A frantic and heart-stopping manhunt ensues, as Clar is forced to run for his life down through Mexico, across the Pacific Ocean and into Peru, where the chase continues deep into the wilds of the Amazon jungle. The ex-President, seeking vengeance for his son's death, uses his wealth and vast network of political and military resources to aid him in the manhunt. Just when capture seems inevitable, Clar is swept away by the rushing waters of an unforgiving Amazon river, only to be captured by a fearsome Amazon tribe which had never before interacted with the outside world. Seconds from death by his new captors, a relic from Clar's military service in Vietnam saved his life. A life that would never be the same. With help from sources never anticipated, Clar draws upon his vast scientific knowledge and unique heritage to continue his pursuit of alternate energy in the most unusual of all places. Get ready for a wild ride across the globe and through the jungle that not only saves a man from his demons, but gives the World hope for a better future.
