Horrible Histories: Terrible Tudors, Understanding Geometry, Tubular Combustion, Integrated Math II, The Friendship Doll, Blood of the Mantis, Soulprint, StarGuard 5th Edition, Shaping Maths, Project Management in Construction, Seventh Edition

The Terrible Tudors weren't just terrible. They were a heck of a horrible bunch! What with Henry VIII and his unlucky wives, and beastly Queen Bess and her slaughtered suitors, even the Tudor kings and queens were royally rotten! So find out...\* Why Henry VIII thought he'd married a horse \* Which terrible torture methods the twisted Tudors used \* Which shocking swear words they simply loved to say \* How an awful Tudor axeman kept botching the job \* What foul food the Tudors ate Plus there are bloody beheadings, a mysterious murder, lots of curious quizzes and some gruesome games. History just doesn't get more horrible!

Tubular combustors are cylindrical tubes where flame ignition and propagation occur in a spatially confined, highly controlled environment, in a nearly flat, elongated geometry. This allows for some unique advantages where extremely even heat dispersion is required over a large surface while still maintaining fuel efficiency. Tubular combustors also allow for easy flexibility in type of fuel source, allowing for quick changeover to meet various needs and changing fuel pricing. This new addition to the MP sustainable energy series will provide the most up-to-date research on tubular combustion--some of it only now coming out of private proprietary protection. Plentiful examples of current applications along with a good explanation of background theory will offer readers an invaluable guide on this promising energy technology. Highlights include: \* An introduction to the theory of tubular flames \* The "how to" of maintaining stability of tubular flames through continuous combustion \* Examples of both small-scale and large-scale applications like steel making, chemical processing, flexible-fuel-source heaters, efficient boilers, and other similar uses

I am Miss Kanagawa. In 1927, my 57 doll-sisters and I were sent from Japan to America as Ambassadors of Friendship. Our work wasn't all peach blossoms and tea cakes. My story will take you from New York to Oregon, during the Great Depression. Though few in this tale are as fascinating as I, their stories won't be an unpleasant diversion. You will make the acquaintance of Bunny, bent on revenge; Lois, with her head in the clouds; Willie Mae, who not only awakened my heart, but broke it; and Lucy, a friend so dear, not even war could part us. I have put this tale to paper because from those 58 Friendship Dolls only 45 remain. I know that someone who chooses this book is capable of solving the mystery of the missing sisters. Perhaps that someone is you. From the Hardcover edition.

Following on from Empire in Black and Gold and Dragonfly Falling, Blood of the Mantis is a vivid fantasy full of intrigue and action, from the Arthur C. Clarke Award-winning author, Adrian Tchaikovsky. A dread ritual casts a deadly shadow . . . Driven by the ghosts of the legendary Darakyon, the seer Achaeos has tracked the stolen Shadow Box to the marsh-town of Jerez - but he has only days before this magical artefact will be lost to him forever . . . Meanwhile, the forces of the Empire are mustering for their next great offensive. Stenwold and his followers have only a short time in which to seek allies before the enemy soldiers are on the march again, conquering everything in their path. And if they cannot hold them back before spring, then the hated black and gold flag will be flying fly over every city in the Lowlands before the year's end. And should the Shadow Box fall into the hands of the power-mad Emperor, then nothing will save the world from his relentless ambition. The Shadows of the Apt series continues with Salute the Dark.

This stunning futuristic love story from New York Times bestselling author Megan Miranda asks the question: How far would you go to escape the past? Seventeen-year-old Alina Chase has spent her entire life imprisoned on a secluded island--not for a crime she committed in this lifetime, but one done by her past self. Her very soul is like a fingerprint, carried from one life to the next--and Alina is sick of being guilty. Aided by three teens with their own ulterior motives, Alina manages to escape. Although she's not sure she can trust any of them, she soon finds herself drawn to Cameron, the most enigmatic and alluring of the trio. But when she uncovers clues from her past life, secrets begin to unravel and Alina must figure out whether she's more than the soul she inherited, or if she's fated to repeat history.

StarGuard is the required text for the StarGuard Lifeguard certification. This edition will develop your ability to prevent, recognize, and respond to water emergencies. It includes 2015 ILCOR and AHA guidelines for first aid and CPR and exceeds the CDC Model Aquatic Health Code (MAHC) guidelines for lifeguard course content.

Publisher's Note: Products purchased from Third Party sellers are not guaranteed by the publisher for quality, authenticity, or access to any online entitlements included with the product. Up-to-Date, Proven Construction Project Management Techniques Thoroughly revised to cover the latest technologies and standards, this practical resource provides all of the information necessary to efficiently execute every phase of any construction job. The book features complete details on estimating, purchasing, contract administration, team management, quality control and assurance, and other topics essential to completing a project on time and within budget. Project Management in Construction, Seventh Edition, covers new OSHA regulations and new contract formats that emphasize collaboration and teamwork. BIM and green buildings, topics of importance to all of today's project managers, are explained.. Coverage includes:

- Introduction to the construction industry
- General conditions of the construction contract
- ConsensusDOCS integrated project delivery contracts
- Lean construction
- Bonds and insurance
- Organizing the project team
- Estimating and buying out the job
- Change orders
- Quality control and quality assurance
- Project documentation
- Claims, disputes, arbitration, and mediation
- Design-build
- Sustainability and green buildings
- Building information modeling
- Interoperability
