Perspectives on Language and Language Development brings together new perspectives on language, discourse and language development in 31 chapters by leading scholars from several countries with diverging backgrounds and disciplines. It is a comprehensive overview of language as a rich, multifaceted system, inspired by the lifework of Ruth A. Berman. Edited by Dorit Ravid and Hava Bat-Zeev Shyldkrot, both from Tel Aviv University, Israel, the book offers state-of-the-art portrayals of linguistic and psycholinguistic phenomena with new insights on the interrelations of language structure, discourse theory, and the development of language and literacy. The volume presents innovative investigations on the interface of language and narrative in a broad range of languages, with a section devoted to linguistic studies of Modern Hebrew. It traces the development of language and literacy from early childhood through adolescence to maturity in spoken and written contexts, and in monolingual as well as multilingual perspectives. Linguists, psycholinguists, discourse scholars, cognitive psychologists, language teachers, education experts, and clinicians working in the field of language and discourse will find this book extremely useful both as a textbook and as a source of information.

The Teacher Resource Books are the ideal companion to the pupils' resources and provide your key to the successful implementation of Nelson English.

This book provides insights into the development toward narrative competence, and illustrates multifaceted patterns in the developing capacity to create globally coherent narrative texts. The methodology draws from both a psycholinguistic approach to narrative development, systemic functional linguistics, and writing pedagogy theory. This book extends previous studies on narrative writing development since it provides a multifaceted window into the progression of narrative development, from elementary school through secondary school and university to life as a professional journalist and writer. It also shows how narrative writing development is related to the cognitive, emotional/psychological and social development of the individual.

Literacy in Early Childhood and Primary Education provides a comprehensive introduction to literacy teaching and learning. The book explores the continuum of literacy learning and children's transitions from early childhood settings to junior primary classrooms and then to senior primary and beyond. Reader-friendly and accessible, this book equips pre-service teachers with the theoretical underpinnings and practical strategies to teach literacy. It places the 'reading wars' firmly in the past as it examines contemporary research and practices. The book covers important topics such as assessment, multiliteracies, reading difficulties and diverse classrooms. Each chapter includes learning objectives, reflective questions and definitions of key terms to engage and assist readers. Written by an expert author team and featuring real-world examples from literacy teachers and learners, the book will help pre-service teachers feel confident teaching literacy to diverse age groups and abilities.
