Exit! is the story of Grizelda Grootboom life of prostitution and her ultimate escape from it all. Grizelda's life was dramatically changed when she was gang raped at the age of nine by teenagers in her township. Her story starts there. It is a story about the cycle of poverty, family abandonment, dislocation and survival in the streets of Cape Town. She reveals the seedy and often demonised life of a prostitute; she describes the clubs and beds of the prostitution and drug industry over a twelve-year period. She moves to Johannesburg at age of 18 in an attempt to start a new life, but instead she is trafficked on arrival in Yeoville, tied in a room for two weeks and forced to work as a sex slave. What follows is a life of living hand-to-mouth, from one street corner to another, being pimped, being taught how to strip, and acquiring and using a variety of drugs - from buttons, ecstasy and cannabis to cocaine - to sustain herself. She speaks of how her prostitution gains momentum in city strip clubs and the sometimes tragic pregnancies that would follow. Grizelda's harrowing tale ends with reconciliation with her family, while raising her six-year-old son. In writing this story she hopes to open a window on the hidden and often misunderstood world of prostitution, thereby raising better awareness and understanding about its harms and the horrors of trafficking and prostitution of women and children, and drug abuse. She hopes to heal and to set an example for others to follow.

While tomatoes continue to be one of the most widely grown plants, the production and distribution of tomato fruits have been changing worldwide. Smaller, flavorful tomatoes are becoming more popular than beefsteak tomatoes, greenhouse-grown tomatoes have entered the marketplace, and home gardeners are using the Internet to obtain information for growing tomatoes. Encompassing these changes, Tomato Plant Culture: In the Field, Greenhouse, and Home Garden, Second Edition clearly presents the characteristics, nutritional information, environmental requirements, and production aspects of tomato plants and fruits. Authored by one of the foremost experts in hydroponics, the book outlines the history of the tomato plant and fruit and delves into the author's personal experiences with tomato plant cultivation. It discusses the characteristics and composition of the plant as well as seedling and seed production. The author elucidates the physical features of the fruit and the mineral nutrition of the plant. He also examines the physical and chemical characteristics of soils most desirable for plant growth, makes fertilizer recommendations, and explores the factors involved in greenhouse tomato production. In addition, the book looks at ways to identify and control plant diseases and insect pests. With scientific data, trivia, and troubleshooting advice, this technical yet accessible book enables scientists, commercial growers, and home gardeners to cultivate a successful crop of tomatoes.

"South Africa possesses one of the richest popular music traditions in the world - from marabi to mbaqanga, from boeremusiek to bubblegum, from kwela to kwaito. Yet the risk that future generations of South Africans will not know their musical roots is very real. Of all the recordings made here since the 1930s, thousands have been lost for ever, for the powers-that-be never deemed them worthy of preservation. If one peruses the books that exist on South African popular music, one still finds that their authors have on occasion jumped to conclusions that were not as foregone as they had assumed. Yet the fault lies not with them, rather in the fact that there has been precious little documentation in South Africa of who played what, or who recorded what, with whom, and when. This is true of all music-making in this country, though it is most striking in the music of the black communities. Beyond memory: recording the history, moments and memories of South African music is an invaluable publication because it offers a first-hand account of the South African music scene of the past decades from the pen of Max Thamagana Mojapelo, who was situated in the very thick of things, thanks to his job as a DJ at the South African Broadcasting Corporation. This book -astonishing for the breadth of its coverage - is based on his diaries, on interviews he conducted and on numerous other sources, and we find in it not only the well-known names of recent South African music but a countless host of others whose
